1 RULES

1.1 The regatta will be governed by *The Racing Rules of Sailing* (RRS), including the US SAILING prescriptions; the GYA Regulations for Sanctioned Events; all applicable class and rating rules; the Notice of Race; and these Sailing Instructions. When there is a conflict between rules, succeeding documents in the list above shall govern. This alters RRS 63.7.

1.2 Between the local hours of sunset and sunrise, RRS Part 2 will be replaced by the *USCG Navigation Rules Part B—Steering and Sailing Rules* (IRPCAS/COLREGS).

1.3 MONOHULL yachts shall be governed by the *By-Laws of the GYA Performance Handicap Racing Fleet* (GYA-PHRF).

1.4 MULTIHULL yachts shall be governed by the *GYA Multihull Council Safety Recommendations* (GYA-MC), for Category 2 events, except that all instances of “should” are replaced with “shall”, and as modified.

1.5 RRS 29.1, 42, 52, 60.1, 62.1(a), 63.7, A4.2, A5 are altered herein. Other documents may change other rules.

1.6 MOTORING while racing is allowed for the Rally division only, as prescribed in SI 14. This alters RRS 42.

1.7 POWERED WINCHES are allowed in all divisions. AUTOPILOTS are allowed in Cruising and Rally divisions only. This alters RRS 52.

1.8 Except while changing sails, yachts shall set only one (1) headsail on the permanent forestay and only one (1) staysail per mast, which shall not extend beyond the rated LP distance.

1.9 NON-SPINNAKER classes shall not set unstayed, free-flying sails, such as a spinnaker, gennaker, flasher, shooter, blooper, or any other sail cut, set or flown to simulate such.

2 SAFETY REQUIREMENTS

2.1 RACE TRACKING – Each yacht shall provide and carry a GPS tracking device as prescribed in the NOR. The device shall be continuously operational from the time a yacht casts off before the start and until she safely reaches port after her finish or withdrawal from the race.

2.2 The equipment listed in Appendix A—MANDATORY SAFETY EQUIPMENT is required for all yachts. Additionally, the OA strongly recommends compliance with the requirements of the US Safety Equipment Requirements (USSER) for a Coastal race.

2.3 All yachts will be subject to random inspection before the start and after the finish for compliance with Appendix A and their rating certificates. Yachts to be inspected after the race will be notified by the RC at the finish and further instructions will be given by VHF. Yachts found not in compliance will be subject to protest by the Race Committee which may result in disqualification or other penalties. These inspections are made for rules enforcement purposes only; the RC will not assess nor warrant the safety or seaworthiness of yachts or crews.

2.4 Prior to the start, each yacht shall hold a man overboard (MOB) briefing or drill involving her full crew.

2.5 During the Prestart Check-In (SI 10), every soul aboard shall be visible on deck wearing a Personal Flotation Device (PFD).

3 NOTICES TO COMPETITORS

Notices will be posted on the official notice boards at Gulfport YC and Pensacola YC, as applicable, and online at the event web site.

RACE TRACKING SPECIFICATION

1 OVERVIEW

Each yacht shall provide, configure, register, carry and maintain a GPS tracking device as specified herein. Live race tracking will be provided by Kattack.com. The public race tracking data will be available online, as linked via the event web site.

2 GPS TRACKING DEVICE

2.1 **OPTION 1 – SPOT Personal Tracker** or other suitable SPOT device, including the SPOT Basic Service Plan and Track Progress service add-on. SPOT devices are available from various retailers. SPOT subscription service is available at findmespot.com. SPOT devices, with Track Progress activated, may also be rented from various sources. *Local SPOT retailers: West Marine; Best Buy; Massey's; Cabela's; Bass Pro*

2.1.1 Track Progress mode (“SPOTcasting”) must be engaged on the SPOT device throughout the event. Note that this mode must be re-engaged on the device at least once every 24 hours.

2.1.2 Fresh batteries should last for several days in Track Progress mode, but replacement batteries should also be available.

2.2 **OPTION 2 – Kattack Mobile** app installed on a compatible GPS-enabled smart device (Apple or Android) with suitable data service plan. The app is available through Kattack.com and the Apple and Android app stores. Check with Kattack for compatibility with other smart devices.

2.2.1 BATTERY LIFE is a primary concern when using a GPS-enabled smart device for race tracking. Provision must be made to maintain the battery charge during the race. It is strongly recommended that the device be continuously connected to a charging device while racing.

2.2.3 Care must be taken that the Kattack Mobile app is able to run continuously throughout the race, as other apps or settings may occasionally interfere with its operation.

The mobile app continuously receives and records position data from GPS satellites, but relies on cellular technology to transmit the data back to the tracking site; it is intended for inshore use, but is adequate for near-shore races. There may be periods when a yacht is out of cellular range, but once it returns to cellular coverage, the previously recorded GPS tracking data is uploaded.

2.3 The tracking device shall be secured in a suitable location for best performance. Our experience in 2013 indicates that a waterproof enclosure secured above deck may work better than locating the device belowdecks; and carbon fiber sails seem to interfere with some GPS signals.

2.4 The tracking device shall be active upon casting off before the start of the race and shall operate continuously until the yacht is docked after finishing or withdrawing from the race.

3 DEVICE REGISTRATION

3.1 Prior to the race, the tracking device must be registered with Kattack.com, expressly for the event. Registration can be performed at any time after completing the event's online entry form, as follows:

3.1.1 SPOT devices must be turned on for a brief period (30 mins) prior to registration, so that the Shared Page contains some amount of track data. Then, email the Boat Name and Shared Page URL to tracking@southernyachtclub.org. Allow at least one (1) day for the URL to be processed.

3.1.2 For the Kattack Mobile app, enter the Boat Name and select the proper Race Feed in the drop-down list.

3.2 The RC will moderate the race tracking registrations for the event. You may check your registration by activating your GPS tracking device and going to the Kattack tracking web page linked from the event web site.

3.3 Pre-event testing is strongly recommended for all tracking devices and configurations.
