

The 66th Mug Race Rudder Club of Jacksonville

The 2019 Mug Race had 94 registrants, 87 starters, and 82 finishers. The fraction of starters who finished is the highest in many, many years. After rain and thunder on Friday, Saturday brought beautiful weather and breeze all day. With winds from the southwest and west, it was a spinnaker up-spinnaker down-repeat day for many crews.

Line honors went to Eric Roberts on *Dream On*, a Roberts Cat 30 with a short mast to fit under the Shands Bridge. This was Eric's first time in a Mug Race without his father, Bill Roberts, who recently passed away. Eric also had the fastest corrected time.

Below see the complete list of perpetual trophy winners, division finishes, and overall uncorrected and corrected results.

The Tall Ships Race for boats with masts over 44 feet was a new event this year. It's a shorter course than the Mug Race, 25 miles down and back from just south of the Buckman Bridge to just north of the Shands Bridge. Three boats started, and Jacqui Welti's Freedom 40, *Kara Vela*, won.

The Rudder Club hopes that everyone had a great time and hope to see you all back next year. Tell your friends and your class associations about the "World's Longest River Race."

Tuesday am: Raul Bosque took 2nd in Monohull NonSpin (calculation error fixed)
