

iPhone Scoring Tutorial

Note: It is possible to score events on US SAILING Regatta Network using the browser and Internet connection of your smart phone. However, the small screen size on most phones and the quirks of mobile browsers may make this experience a bit more challenging. The following gives you step by step guidance on scoring with your iPhone.

Step 1 -- Go to the Regatta Network website using your mobile phone and the browser of your choice.

The site should detect your mobile browser, and offer you the option to visit the mobile site or the full site. Select the mobile site.

Step 2 - Select "Log Onto Regatta Network"

Step 3 – This will take you to the normal Log-In Page for Regatta Nework.

Step 4 - Log Into Regatta Network using the user name and password for your club.

Step 5 – Select the event to score from the list.

Step 6 – Select "Score this Event Online" (Note: You may find that it is easier to score with the phone in landscape mode rather than portrait mode.)

Step 8 – If scoring handicap fleets, enter the start time, and distance (or A/B factor if scoring TOT)

In Safari, the list of entrants to be scored will show 0 items, however when you select the list/drop down, it will show the populated list.

Tap the sail number or boat name for the boat you wish to score,

Tap done

For handicap fleets, enter the finish time into the box, and tap "Move Selected". (Note: When entering finish times, you may substitute periods for colons when entering the times.)

For one design fleets, you may skip the finish time and just click "Move Selected"

In summary the steps to score a boat on an iPhone are:

- Tap entrants
- Select Entrant to be scored
- Tap done
- Enter time (If necessary)
- Tap "Move Selected"

Repeat as necessary.

When you are finished or if you're stopping for a period of time, tap the "Record Scores" button to save your work.

You can always jump back to the race you were scoring by changing the race number at the top of the scoring console.
