## Sailing Instructions

Aug 11 -- PHRFection PTP to Michigan City -- MCYC

Complete

### 1 GENERAL

See GSI 13. Time reference CDT. **Radio:** Channel 78. See GSI 22.

This race brings together racers from different areas with minimal travel to the starting areas and maximum fun at the destination. We give latitude for starting location and time so that fleets are can finish before the time limit. We should like the fleets from four different harbors to arrive in time for dinner and party.

'Corrected Speed' will be used to rank finishers.

**Corrected Speed = distance/corrected\_time = distance / (elapsed\_time - distance\*PHRF).**

**Corrected Speed with wind adjustment = distance/corrected\_time = distance / (elapsed\_time\*WCF - distance\*PHRF).**

**The RC will include a WCF if weather model analysis output is accessible and represents actual conditions.**

JAM and Cruising Spinnaker boats will be in the same class. Skippers: both classes will appear on the entry form. Enter the class that defines how you will sail. The RC will combine the two classes into a single class, using the appropriate handicap.
