

A message from our sponsor, the Narragansett Athletic Sailing Association:

For passionate and skilled sailors in the Northeastern United States, the Narragansett Athletic Sailing Association (NASA) hopes to provide something new: a facility dedicated exclusively to performance sailing. To sail technical, fast boats demands dedication and substantial financial investment, and to sail these boats competitively against a robust fleet demands nothing less than a dedicated facility. NASA wants to meet that demand by providing athletic sailors a place to store, launch, and race fleets that are owned and maintained by a central authority.

NASA is still in its earliest stages. There is no official location, and the specific fleets have yet to be decided on. There is lots to do, but passion for sailing is reason enough. Come find Chris Bulger (founder), Max Bulger, or John Ped (summer intern) this weekend to learn more about the project and talk about your ideas. If you think you have something to contribute, if you are interested in sponsorship/donations, or if you'd like to be one of the first members, please email us at [athleticsailing@gmail.com](mailto:athleticsailing@gmail.com).
