The DYC has joined the race to restore ocean health with Sailors for the Sea's Clean Regattas Program. **ALL SAILORS SHOULD BRING A WATER BOTTLE.** We will have re-filling stations on the water for each class. Leading up to, during and following this year's regatta, organizers will be working with Sailors for the Sea to minimize the impact the event will have on our shores and the seas. This will include everything from recycling and keeping the site clear of debris to reducing reliance on plastic bottles and cups. We will need your help. As a sailor in this event, your actions will be important as we work to reduce our environmental impact. Your choices will make a difference. Here are a few ways you can help during the regatta:

- Help by properly sorting all recycling and compost so we can minimize the amount of waste headed to the landfill.
- Clean your boat using water only. Deck soaps contain phosphates and nitrates that can dramatically affect water quality.
- Reduce your carbon footprint by walking, bicycling or carpooling to the DYC.
- Refilling water stations on the water for sailors and parents

We invite you to learn more about Sailors for the Sea by visiting their website [www.sailorsforthesea.org](http://www.sailorsforthesea.org). Thank you for helping protect our local waters!

We look forward to seeing you and thank you for helping to protect our bay!
