Subject: Re: Radail composite bottom section

Hello Stephen,

The Masters PCC is a Regional event organized by the North American Region of the International Laser Class Association.

According to the ILCA Rule Interpretations, use of the composite lower mast at Regional and World levels is restricted until after September 1 of this year.

<http://www.laserinternational.org/rules-and-regulations/laser-class-rules/#tab-interpretations>

...

So the composite lower mast is not allowed at this event.

Best regards,

Eric Faust

Executive Secretary

International Laser Class Association
