

RYC members and guests are invited to join via Zoom on
December 2nd at 7:00 PM for Sharon Green's multimedia presentation
of the last 30 years of her Ultimate Sailing yacht racing photography

Sharon Green is one of the world's top yacht racing photographers. For more than three decades she has captured the pinnacle of the sport in venues around the globe for the Ultimate Sailing Calendar, international publications, and on assignment for premier campaigns and exclusive clientele. Green is habitually seen performing dare-devil antics, zipping around the water in a RIB or hanging out of a helicopter at world-class events.

NOW, 30 years of Ultimate Sailing comes alive in a hour long virtual multi-media presentation. The show includes a retrospective of favorite photos alongside never before-seen images, and anecdotes – including behind the scenes of how she gets the shots. This lively and intimate presentation will be followed by a Q&A session.
