**Regional Stay At Home Order**  
**12/03/2020**

Upon assessment of the recent, unprecedented rise in the rate of increase in COVID-19 cases, hospitalizations, and test positivity rates across California, the California Department of Public Health (CDPH) is taking immediate actions to prevent the spread of the virus.

The State, like the nation, continues to record an unprecedented surge in the level of community spread of COVID-19. California implemented an accelerated application of the Blueprint Framework metrics on November 16 and a limited Stay at Home Order issued on November 19. However, in the interim, the number of new cases per day has increased by over 112%, (from 8,743 to 18,588) and the rate of rise of new cases per day continues to increase dramatically. The number of new hospital admissions has increased from 777 on November 15, to 1,651 on December 2, and because of the lag between case identification and hospitalizations, we can only expect these numbers to increase.

Current projections show that without additional intervention to slow the spread of COVID-19, the number of available adult Intensive Care Unit (ICU) beds in the State of California will be at capacity in mid-December. This is a sign that the rate of rise in cases, if it continues, is at risk of overwhelming the ability of California hospitals to deliver healthcare to its residents suffering from COVID-19 and from other illnesses requiring hospital care. ICU beds are a critical resource for individuals who need the most advanced support and care and the ability to add additional ICU capacity is limited by the lack of available ICU nurses and physicians as a result of the nationwide surge in hospitalizations and ICU admissions.

Because the rate of increases in new cases continues to escalate and threatens to overwhelm the state's hospital system, further aggressive action is necessary to respond to the quickly evolving situation. While vaccines are promising future interventions, they are not available to address the immediate risks to healthcare delivery in the current surge. The immediate aggressive institution of additional non-pharmaceutical public health interventions is critical to avoid further overwhelming hospitals and to prevent the need to ration care.

**NOW, THEREFORE, I, as Acting State Public Health Officer of the State of California, order:**

1. CDPH will evaluate public health based on Regions, responsive to hospital capacity for persons resident in those Regions.
2. CDPH will evaluate the adult ICU bed capacity for each Region and identify on [covid19.ca.gov](https://covid19.ca.gov) any Regions for which that capacity is less than 15%. When that capacity is less than 15%, the following terms (the Terms of this Order) will apply.
  - a. All gatherings with members of other households are prohibited in the Region except as expressly permitted herein.
  - b. All individuals living in the Region shall stay home or at their place of residence except as necessary to conduct activities associated with the operation, maintenance, or usage of critical infrastructure,<sup>1</sup> as required by law, or as specifically permitted in this order.
  - c. [Worship](#) and [political expression](#) are permitted outdoors, consistent with existing guidance for those activities.
  - d. Critical infrastructure sectors may operate and must continue to modify operations pursuant to the [applicable sector guidance](#).
  - e. [Guidance](#) related to schools remain in effect and unchanged. Accordingly, when this Order takes effect in a Region, schools that have previously reopened for in-person instruction may remain open, and schools may continue to bring students back for in-person instruction under the [Elementary School Waiver Process](#) or [Cohorting Guidance](#).
  - f. In order to reduce congestion and the resulting increase in risk of transmission of COVID-19 in critical infrastructure retailers, all retailers may operate indoors at no more than 20% capacity and must follow the [guidance for retailers](#). All access to retail must be strictly metered to ensure compliance with the limit on capacity. The sale of food, beverages, and alcohol for in-store consumption is prohibited.
  - g. To promote and protect the physical and mental well-being of people in California, outdoor recreation facilities may continue to operate. Those facilities may not sell food or drink for on-site consumption. Overnight stays at

<sup>1</sup> See <https://covid19.ca.gov/essential-workforce/> for full list of California's Critical Infrastructure workforce.

9. When operative in a Region, the Terms of this Order supersede any conflicting terms in other CDPH orders, directives, or guidance. Specifically, for those Regions with ICU bed capacity triggering this order, the Terms of this Order shall supersede the State's [Blueprint for a Safer Economy](#) and all guidance (other than guidance for critical infrastructure sectors) during the operative period. In all Regions that are not subject to the restrictions in this order, the [Blueprint for a Safer Economy](#) and all guidance shall remain in effect.
  
10. This order is issued pursuant to Health and Safety Code sections 120125, 120130(c), 120135, 120140, 120145, 120175, 120195 and 131080; EO N-60-20, N-25-20, and other authority provided for under the Emergency Services Act; and other applicable law.
