

2021 Labor Day Long Distance Race
Lake Canyon Yacht Club
NOTICE OF RACE

Date: Sunday, September 5, 2021

Eligibility: This race is open to all.

Racing Rules: This regatta will be governed by the Racing Rules of Sailing (RRS) 2021-2024, this Notice of Race (except as any of these are modified by the sailing instruction), the current version of the Canyon Lake sailing instructions, and if sailing in a one design fleet, the applicable class rules. This event is classified as a category "A" event. Any additional information will be posted on the Official Notice window of the Clubhouse.

Scoring: Low point system. Boats that have not finished within one hour of the first boat of their respective class, or not finished within 4 hours from their respective start (the maximum time limit) will be scored DNF.

Proposed Classes: J-22, PHRF Spinnaker, PHRF Non-Spinnaker, Big Boats, Multi-Hulls, Board Boat

Races: One race is scheduled.

Courses: The race will be a Long Distance race. The course for this Any Which Way Long Distance race is posted in the Sailing Installations and will be reviewed during the Skipper's meeting.

Trophies: Trophies will be given to First Place finishes in all classes. All finishes will be posted on Regatta Network & awards presented after the race if time allows.

Schedule:

Saturday, Sep 4, 2021	2200	End of Registration
Sunday, Sep 5, 2021	0830	End of Late Registration
Sunday, Sep 5, 2021	1045	Skippers Meeting on Super Dock
Sunday, Sep 5, 2021:	1200	First Start
Sunday, Sep 5, 2021:	1600	Target Finish Time

Disclaimer of Liability: Competitors participate in the regatta entirely at their own risk. See RRS Part 1, #3, Decision to Race. The organizing authority will not accept any liability for material damage or personal injury or death sustained in conjunction with or prior to, during, or after the regatta. Due to the COVID-19 pandemic, all skippers are required to read the LCYC COVID-19 Task Force Recommendations in NOR Appendix, answer the four questions on registration in Regatta Network and sign the "Regatta Waiver and Release of Liability" document posted on the Regatta Network website along with the Notice of Race (NOR) and Sailing Instructions (SI). A signed copy of "Regatta Waiver & Release of Liability" is to be delivered at the Super Dock prior to race.

UPDATE to Hygiene Addendum & New TRAILER SAFETY REVIEW & CHECKLIST: All Skippers & Crew are encouraged to wear masks while on the dock prior to / and after finishing the race.

Insurance: Each participating boat shall be insured with valid third-party liability insurance.

Photography and Video Rights: All marks, pictures, audio and video recordings, graphic logos and service names contained herein or produced during the Regatta by or on behalf of the LCYC are the properties of the LCYC. No rights are granted to use pictures, graphic logos and service names without permission. Competitors give absolute right and permission for video footage or photographs of themselves or their boat to be published in any media for press, editorial or advertising purposes.

Entry Fees: Registration \$35.00 per boat. Late Fee \$10.00

Payment Method Options: Club charge, Paypal® or credit card.

Appendix:

COVID-19 Recommended Guidelines

Social/Physical Distancing

- Maintain a distance of at least 6 feet (about 2 arm lengths) from people outside of your household while on club property and at club events.
- Comply with limits on the size and location of group activities, gatherings, and events, as directed by the Commodore or other appointed or designated club leadership.
- Avoid enclosed places where distancing is not possible.
- Respect the social distancing needs of others.

Hygiene

- Wash your hands often with soap and water for at least 20 seconds, especially after being in a public place, and after blowing your nose, coughing, sneezing, or using the bathroom.
- If soap and water are not readily available, use self-provided hand sanitizer that contains at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid physical contact (including hand shaking, hugging, or sharing food or utensils) with persons outside your household.
- Cover coughs and sneezes with a tissue, if possible, or cough and sneeze into your elbow.
- Wear a face mask when physical distancing is not possible.

Symptoms, Suspected COVID-19 Infection or a Positive Test for COVID-19

- Do not come onto club property or attend club events if you are experiencing any communicable illness or any symptoms of COVID-19, as identified by the Centers for Disease Control and Prevention. A current list of COVID-19 symptoms is available here: <https://www.cdc.gov/coronavirus/2019-ncov/symptoms-testing/symptoms.html>.
- Promptly notify club leadership and those with whom you had contact while at the club or attending club events if you test positive for COVID-19 or experience symptoms of COVID-19 within 48 hours of being on club property or attending a club event. Individuals who should be notified are those with whom you had contact within 48 hours of taking the COVID-19 test or experiencing symptoms.
- Any individual who (i) has symptoms of, (ii) suspects he or she may have COVID-19, or (iii) tests positive for COVID-19 must not come onto club property or attend club events until the individual has completed *all* of the CDC's requirements to be around others. These requirements are set out on the CDC website at "When You Can be Around Others After You Had or Likely Had COVID-19," which is available here: <https://www.cdc.gov/coronavirus/2019-ncov/if-you-are-sick/end-home-isolation.html>

NOTE: New TRAILER SAFETY REVIEW & CHECKLIST

LAKE CANYON YACHT CLUB TRAILER SAFETY REVIEW & CHECKLIST

Properly sized and installed Ball, Hitch, Coupler and Safety Chains are required for launching and recovery.

It is the responsibility of the owner/vehicle operator to understand the loads and install the proper Hitch, Ball, Coupler and Safety Chains and ensure that his/her boat does not become detached from the vehicle.

Here are some points and considerations gathered from TAC 37. 21.5 (d) and SAE J684 sec 7. These are not all inclusive and your boat and trailer may require additional safety measures.

If you are unsure of your Trailer and Boat combined Gross Vehicle Weight (GVW) then you should determine that to ensure that your Hitch, Ball, Coupler and Safety Chains are sufficient.

The Trailer's Ball Coupler should be sized to the Ball being used and property adjusted to minimize play and to prevent popping off. You should inspect the coupler and test it to ensure it is properly seated and attached. Use a Pin, Lock or Bolt to ensure that the Coupler locking lever is secured. Also ensure that the Ball is in good condition and properly bolted or attached to the Hitch. Ensure that the Vehicle Hitch Bolt and Locking Pin are secured.

Safety chains should be sized to fit the job. Each link/piece in the chain must have an ultimate strength of not less than the gross vehicle weight (GVW) of the items being towed. Over-rated chains are OK They should have no more slack than is necessary to permit the vehicle to turn properly and should be attached to the sides of the trailer tow bar, equal lengths on either side. The S hook style chains are not recommended although they might be sufficient for a light-weight trailer & boat. Gated Clevis Hooks with chains are preferred. The hooks should be clipped to the vehicle's frame, not the receiving hitch, in a crossed fashion (to act as a cradle for the tow bar in the event of accidental release). The hooks should be gated for a better connection. Avoid applications that alter the Hitch, Ball, Coupler, Chains and connections in any way. Welding, stretching links to accommodate bolts and twisting them to shorten the effective length reduces the overall chain strength. Safety Cables without additional Chains and Clevis Hooks are not recommended.

The following page is the trailer safety inspection checklist you will be asked to sign prior to launching your boat at the LCYC Ramp.

LAKE CANYON YACHT CLUB
TRAILER CONNECTION GENERAL CONDITION (circle one)

Surface rust	Y	N
Penetrating rust	Y	N
Are any chain links stretched	Y	N
Is chain welded or any links damaged	Y	N
Any signs of wear, stress or chain drag	Y	N
If S-hook, they are Gated	Y	N
Using Gated Clevis Hooks	Y	N
Equal distance on either side of tow bar	Y	N
Chains are Crossed (and not twisted)	Y	N
Securely attached to side or top of trailer	Y	N
Securely clipped to the vehicle frame	Y	N
Both trailer and boat are insured	Y	N

Owner/vehicle operator has completed the above checklist and certifies that the proper Hitch, Ball, Coupler and Safety Chains and Hooks have been installed and inspected.
