Over the past 35 years, Shapes of Speed has been in the making from the moment Steve Shaw went for his first sailboat race onboard Milt Ingram's Cal 29 "Class Sea" in the waters off Ventura, CA. It wasn't long before Steve began racing nearly every weekend and even took a job at 16 years old working in the local sail loft. It was when moving to college in Southern California that led Steve to the next level in sailing performance. While collegiately sailing, Steve also worked at Performance Sailing Inc., building/rigging Naples Sabots and Flying Junior sailboats. PSI was located in the same building as Proctor Masts and Ullman Sails which led to Steve taking a tenure at Ullman Sails throughout the 90's. While there, Steve was fortunate enough to sail with US Sailing Hall of Fame member Dave Ullman for a number of years, along the way winning multiple World and National level events.

Anchor Steam® Beer derives its unusual name from the 19th century when "steam" was a nickname for beer brewed on the West Coast of America under primitive conditions and without ice. Today the name "steam" is a trademark of Anchor Brewing and applies only to the singular process and taste of our flagship brand - San Francisco's original Anchor Steam® Beer. The classic of American brewing tradition since 1896.
