SAFE HARBOR MARINA CLASSES SUPPLEMENT SPIN AND NON-SPIN

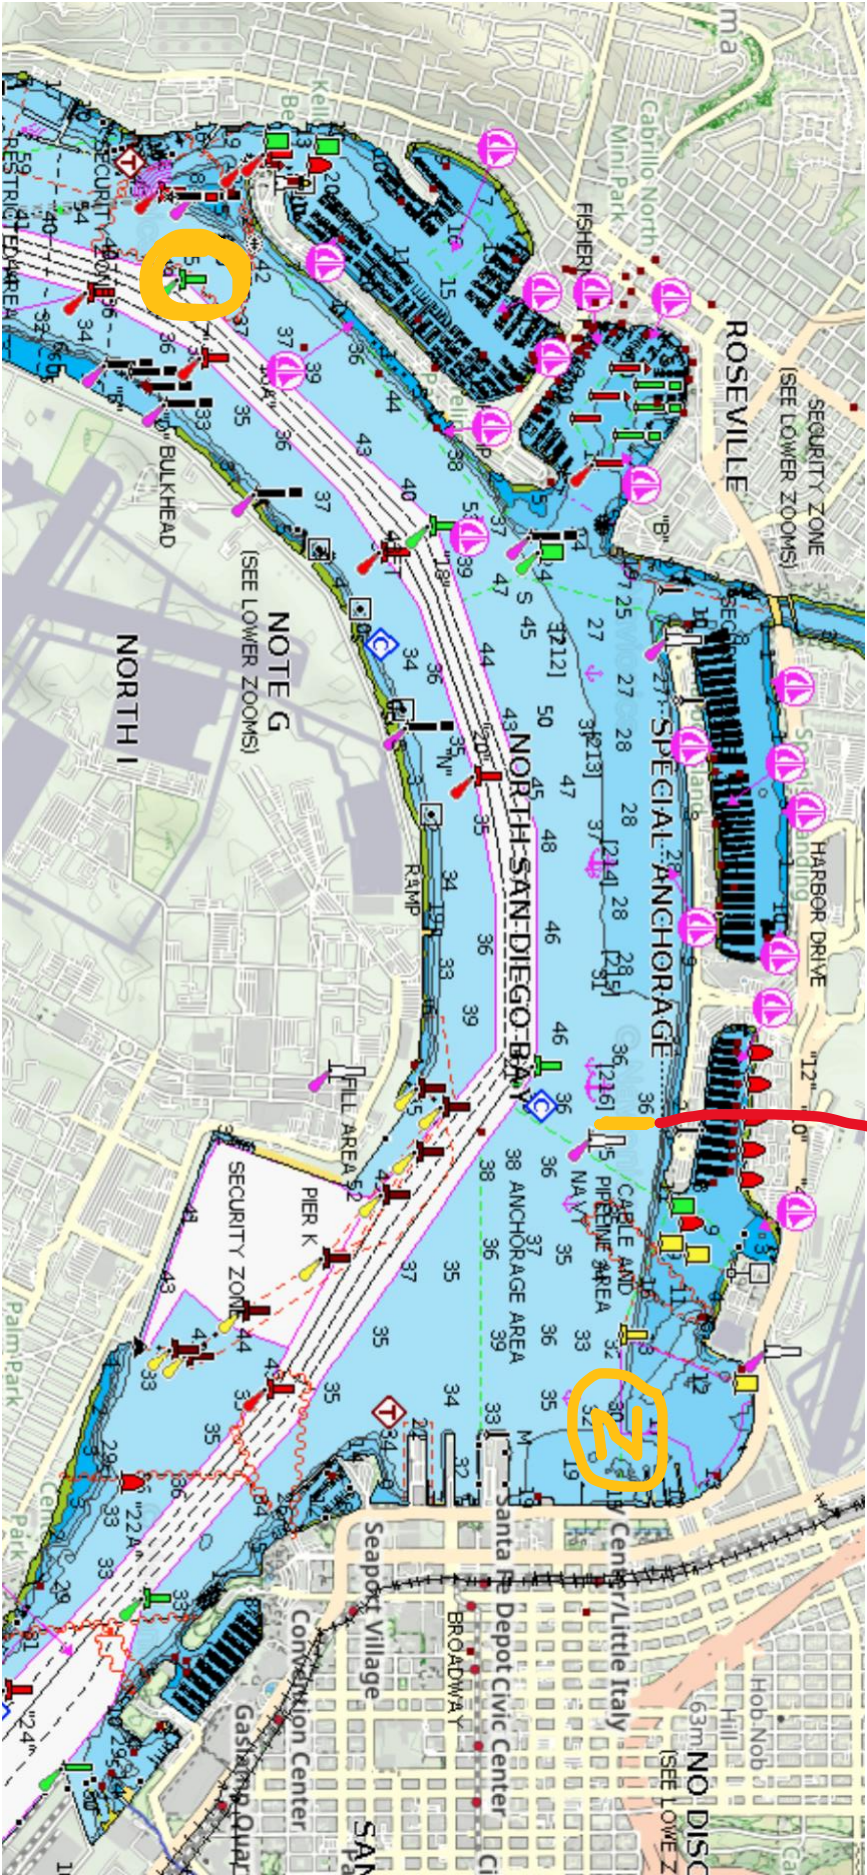

- 1) All boats without sail numbers please check in at the race committee boat, rather than via radio, so we may get a visual description of you. Also, at your finish, please hail your boat name.
- 2) Please fly your Safe Harbor Marina burgee from your backstay.
- 3) Please do read the official Sailing Instructions for all other information.
- 4) Very light winds are expected for this race, with rain. Your racecourse is 6nm, which is short for one race, but you may need all the time to complete it in these tough conditions. Remember, in light air, you need to have the courage of your convictions!
- 5) Your racecourse: Start - round Buoy 17 to port - round "Z" mark to port - Finish.

Start: The starting area is in the vicinity of the mile marker at the EAST end of Harbor Island, across from the Safe Harbor Sunroad Marina. Start between the RC boat and the orange MarkSetBot, leaving the RC boat to starboard.

Buoy 17: Green government channel marker in the vicinity of the SW end of Shelter Island.

"Z" Mark: CRA YELLOW Inflatable buoy, Southeast of the Embarcadero, near the Star of India.

Finish: The finish is the same area as the Start except finish between the RC boat and Harbor Island, leaving the RC boat to port.

Start/Finish Line
