9 SCORING

ADD

9.7 RLC ratings with the NSO (Non-Spin Offset) added will be used for scoring the Non-Spinnaker class. The Time-on-Time (TOT) algorithm will be used for scoring the Non-Spinnaker class.

Rationale:

Buoy ratings are not appropriate for the Tour de Bay course.
TOT will be used because the distance will not be able to be accurately determined due to the variable placement of the inflatable marks at the beginning and end of the course.
