COURSE CHART 24-01

HURRICANE GULCH

FAST FRIDAYS

Additional uncharted submarine pipelines and submarine cables may exist within the area of this chart. Not all submarine pipelines and submarine cables are required to be buried, and those that were originally buried may have become exposed. Mariners should use extreme caution when operating vessels in depths of water comparable to their draft in areas where pipelines and cables may exist, and when anchoring, daggng, or trawling. Covered areas may be marked by lighted or unlighted buoys.
