

CORTEZ RACING ASSOCIATION

A CALIFORNIA NONPROFIT CORPORATION
SAN DIEGO, CA

San Diego Beer Can Series

NOTICE OF RACE

AMENDMENT #3

10 SCORING

~~10.7 The ORC classes will be scored using the 5-Band AP (All Purpose) TOT scoring option. Enter the TCF values for Low, Med/Low, Medium, Med/High and High.~~

10.7 The ORC classes will be scored using a combination of the 5-Band AP (All Purpose) TOT scoring options and the 5-Band Windward/Leeward TOT scoring options. Enter the TCF values for the following labels:

- 5-Band AP Low
- 5-Band AP Low/Med
- 5-Band W/L Low
- 5-Band W/L Low/Med
- 5-Band W/L Medium

Purpose:

To be able to score races that are of a windward/leeward direction.

The scoring program, Regatta Network, does not allow for more than five slots to input ORC ratings.

The above five labels are chosen to represent the most likely conditions during the Beer Can Series.

Please Note: In the online list of current registrants, the headings for the ORC values are not able to be updated to match the above labels. However, the appropriate label will appear in the results of each race.

The ratings for each boat have been updated and the relation of the headings to the labels is this:

- ORC Med. = 5-Band W/L Low
- ORC M/H = 5-Band W/L Low/Med
- ORC High = 5-Band W/L Medium
