8. **Sailors for the Sea “Clean Regatta”:** This regatta will be a Sailors for the Sea “Clean Regatta.” As such, all competitors are required to use non-single use water bottles and recycle all appropriate items.

Water bottle re-filling stations will be available on the water for each class. Leading up to, during and following this year’s regatta, organizers will be working with Sailors for the Sea to minimize the impact the event will have on our shores and the seas. This will include everything from recycling and keeping the site clear of debris to reducing reliance on plastic bottles and cups.

We need your help. As a sailor in this event, your actions are important as we work to reduce our collective environmental impact. Your choices make a difference.

Here are a few ways you can help during the regatta:

- Properly sort all recycling so we can minimize the amount of waste headed to the landfill.

- Clean your boat using water only. Deck soaps contain phosphates and nitrates that can dramatically affect water quality.
- Reduce your carbon footprint by carpooling, or for locals by biking or walking, to the DYC.
- Use water bottle re-filling stations on the water.

We invite you to learn more about Sailors for the Sea by visiting their website [www.sailorsforthesea.org](http://www.sailorsforthesea.org).

We look forward to seeing you and thank you for helping to protect our bay!
