Club Handicap Racing Fleet Sunday Series 2014

The objective is to provide a venue for sailors of all levels to compete in a friendly atmosphere. It will provide an opportunity for those that have considered racing to give it a try without the anxiety of crowded starting lines and the likelihood of finishing well behind the rest of the fleet.

This is accomplished by rating boats based on actual performance in past races and providing staggered starts based on these ratings. The first boat to finish will be the winner. If you end up well behind the winner, your rating will be adjusted to improve your chances at the next race.
